magicolor® 2480MF / 2490MF

## Compact multifunctional for professionals

REVOLUTION IN COLOUR PRINTING

KONICA MINOLTA

magicolor® 2480MF / 2490MF

# Compact multifunctional for professionals

Whether it is working in a small office or a medium-sized business, space is a luxury few can afford. At the same time, there has never been a greater need for performance, productivity and cost-efficiency. The magicolor® 2480MF / 2490MF is the perfect solution to meet these requirements. With colour printing, copying, scanning and faxing (monochrome), this all in one device is nothing less than a total office solution for the modern professional.

## Compact enough for your office environment

The magicolor® 2480MF / 2490MF is the ultimate colour printer/copier ideal for small to medium- sized businesses which require all essential business functions in one device. Placed on a desk, its compact size makes it indispensable when space is limited.

## Printing, copying, scanning, faxing...and money saving

With every essential business function in one unit, the magicolor® 2480MF / 2490MF is the perfect choice for controlling costs. A major benefit is that there is no need to order supplies for separate machines. On the control panel there is a colour/monochrome copy button and a button to display consumable and other machine status, allowing you to monitor your toner consumption.

## Fax capability

**magicolor® 2480MF** – PC-fax Software included

**magicolor® 2490MF** – Device embedded fax capability without PC

## PaperPort and scanning

PaperPort makes document handling, file sharing and archiving easy by providing a way to convert paper documents or images into digital format. All scanned files can be saved in JPEG, TIFF, PDF and other common file formats. Optimise data sharing through the scan to email feature, which enables digital documents to be sent to any email.

## Outstanding paper handling for optimized efficiency

Outstanding paper handling is at the heart of the magicolor® 2480MF / 2490MF. With a 700-sheet maximum paper input capacity, it handles large print runs with ease, whilst vastly reducing user intervention. What is more, you can carry out important document printing in house, thanks to a combination of an automatic duplex unit and exceptional media handling. From brochures to professional quality presentations, the magicolor® 2480MF / 2490MF significantly reduces the need to outsource print material – saving valuable costs.

## Fast laser-sharp printing

Printing at an exceptionally sharp 2400 x 600 dpi, the magicolor® 2480MF / 2490MF's output speed is 5 pages per minute in colour, 20 pages per minute in monochrome and first page out is 21 seconds in colour and 12 seconds in monochrome. 24-bit scanning combines with a TWAIN and WIA compatible Windows® driver interface, USB 2.0 (High-Speed) and Ethernet (2490MF) connectivity, to add superb flexibility.

## Direct Photo Print

The magicolor® 2480MF / 2490MF lets you print photos direct from any PictBridge-compliant digital camera. It's fast, easy, and there is no PC involved. Using index printing, it also lets you print a contact sheet first. With the facility to scale and rotate images as well, you have the convenience of managing and editing your photos – all from your camera.

## Versatility with user-friendliness

With an easy-to-read operation panel, easy access to consumables and the ability to scan directly to e-mail with the magicolor® 2490MF, it couldn't be more user-friendly. When it comes to copying and scanning, a standard 50-sheet automatic document feeder means you can leave it to do its job unattended, saving time and effort. Quite simply, the magicolor® 2480MF / 2490MF provides all the features a professional office looks for – in one device.
