REVOLUTION IN COLOUR PRINTING

KONICA MINOLTA

The high performance high speed workgroup printer

Fast colour and monochrome printing in one printer is not something you usually associate with keeping costs down. The remarkable magicolor® 5440DL however prints fast in both colour and mono, and offers another indispensable feature cost-effectiveness. It's a powerful, versatile and easy-to-use printer perfectly suited to medium-sized workgroups.

See how it adds up

Designed specifically as a colour and monochrome printer, the magicolor® 5440DL combines all the benefits of mono printing – high print speed and low cost per-page – with the advantages of high-quality colour printing. More economical than mono-only laser printers with comparable print speeds, and with inexpensive and long-lasting consumables, the magicolor® 5440DL keeps your spending to a minimum.

Powerful and versatile, to get the job done

Printing both colour and mono at an incredible 25 pages per minute, the magicolor® 5440DL handles heavy workloads with ease. It also excels when it comes to smaller tasks, thanks to a first page printout time of just 14 seconds. Konica Minolta Raster Language provides fast page-processing while supporting all major operating systems (Windows®, Mac® and Linux®). Adding a duplex unit offers you the flexibility of two-sided and booklet printing, and paper capacity can be increased to 1600-sheets. The result? Busy offices have all the printing capability they need in one single, powerful machine.

Easy to use, straight out of the box

The magicolor® 5440DL is ready to go as soon as you unpack it, with consumables and network card already installed. A back-lit LCD makes everything easy to read, and you control all printer functions from your PC through PageScope™ Web Connection. This minimises trips to the printer, so you stay as productive as possible. The number of replaceable consumables is only five, while Konica Minolta's on-site warranty gives you complete peace of mind.

Just connect your camera and print

With an optional Camera Direct Photo Print Card, the magicolor® 5440DL lets you print photos direct from any PictBridge-compliant digital camera. It's a fast and convenient way to print photos at the touch of a button.

magicolor® 5440DL

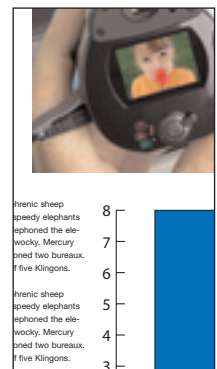

PRISMLASER
TECHNOLOGY

Superb colour printing

Cutting-edge technology is built into the magicolor® 5440DL with just one purpose – to provide outstanding printing. Object Segmentation technology means images and text combined together on the page are beautifully sharp and vivid. 2400 dpi high-resolution gives smoothly graduated prints, eAIDC (enhanced Automatic Image Density control) delivers superb colour consistency, while PRISMLASER Technology™ ensures even greater print quality. With the ability to handle stock up to 210 g/m², business cards, brochures and similar materials can all be produced in-house.

Laser sharp

The Object Segmentation technology found in the magicolor® 5440DL increases print quality of documents composed of various objects (text, graphics and images) by analyzing and selecting the best printing setting for each object. The result: crisp text, smooth graphics and vivid images that are usually found on high-end graphical printers.

magicolor® 5440DL

magicolor® 5440DL Quick Overview

Speed

- Single-pass PRISMLASER Technology™
- Colour: up to 25 ppm
- Monochrome: up to 25 ppm
- First page out: 14 seconds
- Warm-up time: 35 seconds
- Ethernet (10BaseT/100BaseTX) & USB 2.0 (High-Speed)

Quality

- 2400 x 600 dpi resolution
- Simitri polymerised toner
- Object Segmentation Technology
- Enhanced Automatic Image Density Control (eAIDC)
- Automatic ICC based colour matching

Options

- Automatic duplexer for two-sided printing
- 500-sheet lower input feeder (add up to two)
- Cabinet/stand for storage
- Camera Direct Photo Print Card

Ease of use

- Intuitive LCD display
- Quick-view toner level indicator on LCD display
- At-a-glance paper gauge
- 5 easy-to-replace consumables
- Pre-installed consumables & network card

Versatility

- 100-sheet multi-purpose tray (up to 210 g/m²)
- 500-sheet cassette (A4)
- Konica Minolta Raster Language
- Windows® / Mac® / Linux® compatible
- PageScope™ Web Connection
